Forecast for Tuesday 27 Aug 2024

Weather: Cloudy with outbreaks of rain during this morning along with summit gales. The heaviest and most persistent rain expected over Creag Meagaidh and the west. Becoming drier and brighter through the afternoon with occasional showers. Cloudy or bright in the evening, mostly dry, although the odd shower still possible.

Chance of cloud-free hill tops above 800m: 30% rising to 70% in the afternoon.

Low cloud and visibility: Occasional or extensive cloud, base 600 to 900m, occasional or patches down to 300m during this morning, mainly in the west. The cloud often near or above the summits by the end of the afternoon. Visibility moderate or poor in rain and very poor at height, becoming mostly good or very good away from summit cloud during the afternoon and evening.

Met Office Aberdeen Meteorologist's View
A poor start, but conditions gradually improving. Note summit gales.

Forecast for Wednesday 28 Aug 2024
Weather: A rather cloudy start with showers or the odd longer spell of rain. Some drier and brighter spells developing during the afternoon with the cloud lifting near or above the summits with just a scattering of showers.

Maximum wind: South or Southwest 20 to 25mph gusting 35mph

Chance of cloud-free hill tops above 800m: 40% rising to 80% by end of the afternoon.

Low cloud and visibility: Occasional or extensive cloud, bases 600 to 900m, lifting and breaking near or above the summits during the afternoon. Visibility moderate or poor in rain or showers, and very poor at height, becoming mostly very good by the end of the afternoon.

Temperature: **Glens:** Plus 10 to 18 Celsius
At 800m: Plus 6 to 9 Celsius
Freezing level: Above the summits.
